

Ronak Hasmukhbhai Bhanderi

Address: 220B Ira Needles Blvd, Kitchener, ON. N2N0C6

Contact: 647-869-1285 | Mail: bhanderironak2003@gmail.com

OBJECTIVE

I am a motivated professional with a diploma in Business – Finance, and I am proficient in seamlessly integrating computer-controlled systems to optimize automation. I possess manufacturing and CNC machine control expertise and a track record in ensuring safe machinery operation, equipment setup, calibration, and executing effective maintenance procedures.

TECHNICAL SKILLS

- **Computer Skills:** Competent in utilizing software to control and monitor CNC machines and specifications and proficient in employing digital tools to streamline operations and optimize production.
- **Equipment Setup and Calibration:** Skilled in machinery setup, ensuring precise calibration for optimal performance, meeting quality control standards, and conducting thorough initial quality checks of assembled components.
- **Safety Procedure:** I voted to adhere to safety guidelines and recommended procedures during machine operations. Prioritizes and maintains a safe working environment for oneself and team members, minimizing risks and meeting occupational health and safety standards.
- **Automation and Integration:** Proficient in integrating computer-controlled systems with manufacturing processes with senior gadget assemblers for constructing programmable logic controllers (PLCs) and contributing to enhanced manufacturing operations automation.

EDUCATION

Higher Secondary School (GSHSEB), Ashadeep Vidyalaya - 4.

(June 2019 - April 2021)

Diploma in Business – Finance, Conestoga College.

(January 2023 – Continue)

WORK EXPERIENCE

Machine Operator and Manufacturing.

(November 2021 – October 2022)

Microtek Laser Cutting. (Surat, Gujarat, India)

- Collaborated seamlessly with senior gadget assemblers to construct and bring together computerized systems, ensuring adherence to engineering drawings and specifications.
- Conducted thorough inspections and testing of assembled additives and machines, continually retaining stringent satisfactory standards.
- Successfully diagnosed and directly reported defects or troubles to senior assemblers or supervisors, facilitating speedy decisions.

Machine Operator.

(December 2022 – June 2023)

Aquacut Foam. (Brantford, ON)

- Set up and operated machines to fabricate parts according to specifications and Monitored machine operations to ensure quality control standards were met.
- Strong programming knowledge and understanding of machining processes.
